

Task package

Task contract

Objective
Data and access rules

Environment

Docker image
Dependencies + tools

Base model

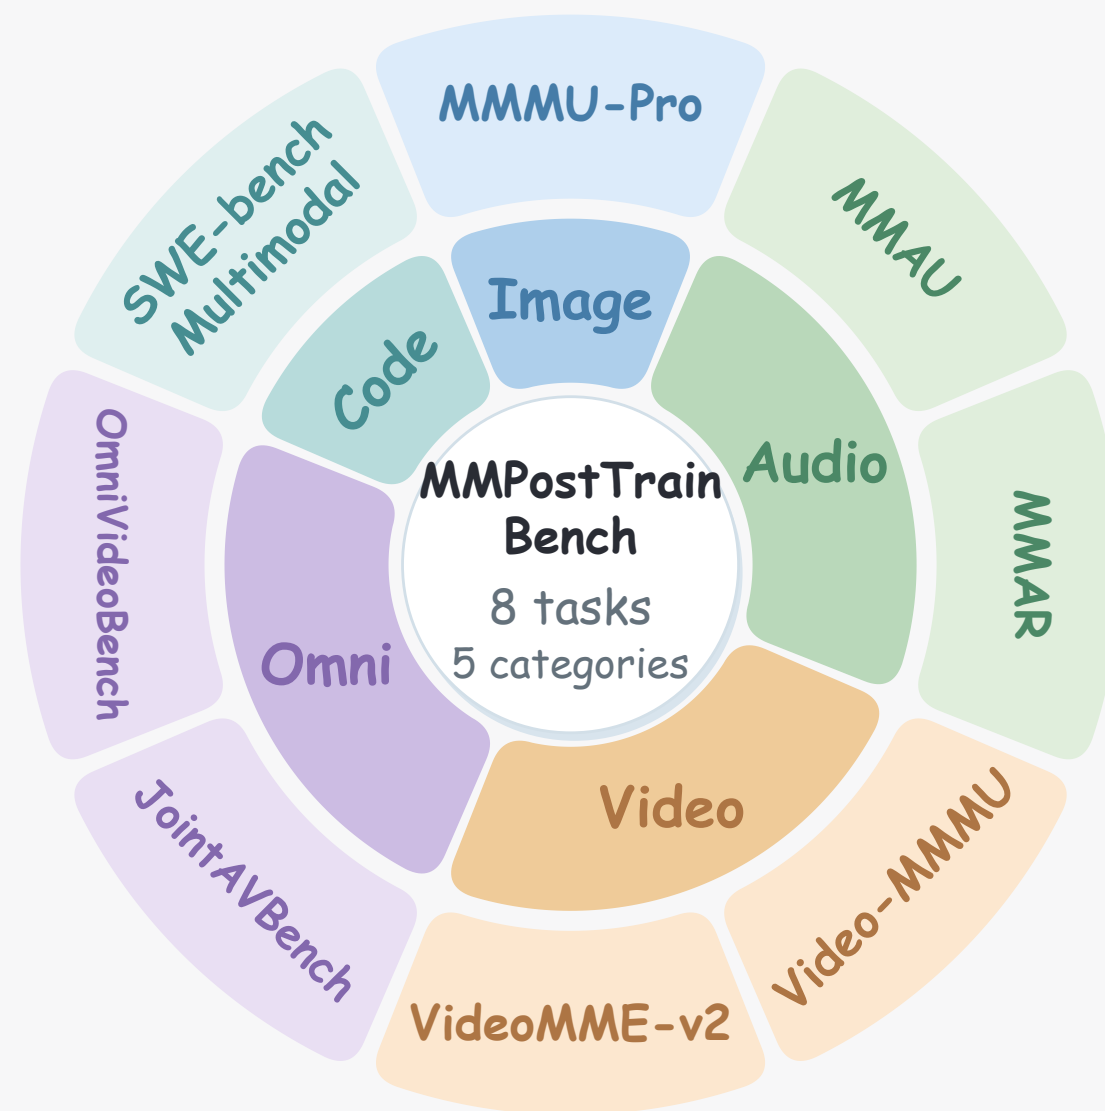

Qwen3-Omni-
30B-A3B-Instruct

Resource budget

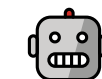

Compute and time
Network permissions

Task suite

Scores, trajectories and audit evidence

Harbor execution

Research environment

Model-harness pair

Data

Training

Selection

Authorized development feedback

Candidates + submissions

Independent verifier

Dev set

Authorized feedback
Research + selection

Held-out test

Final evaluation
Candidate scoring

Evaluation dimensions

Model outcomes

Target gain

Target task
vs. base model

Non-target gain

2 cross-category probes
Capability retention

Iterative model improvement

Iterative progress

Quality trajectory

Final selection

Submission loss

Research integrity

Code

Data

Trajectories

Suspected protocol
violations

Flagged runs
